Re: Asbestos containing materials

Date: August 29, 2017

Even though this school has been constructed with materials that do not contain asbestos, federal regulations require that schools be inspected for the presence of asbestos, a toxic material that has been used in the construction industry for a number of years.

A letter from the architect stating the fact that this school has no asbestos containing material has been sent to the State Department of Environmental Quality, Division of Air Quality, Salt Lake City, Utah. Copies of this letter are on file in the school office and at the Catholic Schools Office, Diocese of Salt Lake City, 27 C Street, Salt Lake City, Utah.
